

**BOA drawings from the archives of Hill & Son, Norman & Beard and Hill,  
Norman and Beard, BOA Boxes 605-607**

This is a provisional listing of the as yet unsorted contents. It names only those papers where the organ location is identified on the document.

Where known, the BOA number corresponding to the organ location is given [in square brackets] (ie the number which has been assigned to that particular organ in the BOA Main Index which has been compiled to facilitate searching of the archive).

A complete list of the contents of most of the other drawings in this extensive sequence is also available (see 'BOA drawings in records of Hill & Son; Norman & Beard; Hill, Norman & Beard BOA Boxes 501-603.pdf' in the Document field of the online catalogue to the [BOA](#)).
